THE GENERAL CONFERENCE
MENNONITE CHURCH

The Mennonite Press

North Newton, Kansas

A VISITOR EVERY WEEK

THE MENNONITE—with a current circulation of over 12,000. Visiting weekly many homes with church news, summaries of Conference activity, inspirational articles, and thought-provoking editorials.

DER BOTE—eagerly looked for in many homes where German is still loved and read. Published weekly at Rosthern, Saskatchewan.

THE JUNIOR MESSENGER—certainly junior welcomes a visitor! Not for him alone, but for sister also. They love interesting stories, pictures, puzzles, quizzes, and Bible study projects. They desire the best; why not give it to them?

AN OLD FRIEND EVERY SUNDAY

Sonntagschul Lektionen—A German and English quarterly for congregations still using both languages. Grandfather, especially, finds this quarterly a real friend.

Senior-Adult Quarterly—Helps you understand the Uniform International Sunday School Lessons. Excellent for mother and dad.

Young People's Quarterly—For young people of high school and college age. Special discussion section intended for them. They are proud of this friend.

Intermediate—Children ages 12 to 14 enjoy this companion. It is so understanding of their interests, needs, and problems.

Junior Quarterly and Teacher's Handbook—Juniors, ages 9 to 11, love to work on quizzes, and are eager to read the interesting, well-written material. The **Handbook** is indispensable for the junior teacher.

Herald Teacher—Teachers for the adult, young people, and intermediates just feel lonesome without this helpful friend. Every week it is eager to assist in preparation for the following Sunday.

FOREWARD

This 1951 Mennonite Year Book goes out with the sincere hope that it will prove to be useful in the purpose for which it has been prepared. It is not primarily a booklet for inspirational reading or entertainment. It is a handbook, and as such it contains much valuable information covering the different areas of the work of the General Conference. For ready reference and use it contains a complete listing of the General Conference officers, boards and committees, as well as that of the several district conferences. You will also find the names and addresses of all ministers of the General Conference, both of those who are active as pastors of churches, as well as those who have no regular charge. Many of those who have no regular charges hold other positions of leadership and responsibility in various conference positions, teachers in our schools and colleges, and in administrative work of some kind or other. It also contains a listing of our conference schools with their respective boards of directors, administrations, and faculties, as well as our hospitals and homes for the aged.

Great care has been exercised to give information as accurately and completely as possible. However, that it is completely free from error is more than can be expected. In addition to that, changes are constantly taking place, and even before the booklet has a chance of coming off the press some of the statistics will already be out of date. We ask not only your kind forbearance in this matter, but also your cooperation. You can help in that you report to the Executive Secretary, 722 Main, Newton, Kansas, any errors or omissions you may find, and in this way help to avoid the same errors for the next issue of the Year Book.

The Handbook will be a valuable reference help to conference officers and workers and to the ministers of our churches. But it should also be a practical help to church boards, Sunday School superintendents and Christian Endeavor workers, Mission societies, and also to many laymen in our congregations. That it may aid and promote our church and conference work is our sincere hope and prayer.

MISSION BOARD—FOREIGN SECTION

Seventy years ago the Lord laid it upon the hearts of our people to undertake the evangelization of the Arapahoe and Cheyenne Indians. Later work was begun among the Hopi Indians of Arizona. Through the years this work has been continued under the blessing of God. Fifty years ago the Lord opened the door of another field. We then sent our first missionaries to India. The Lord of the Harvest has indeed prospered the labors of his servants. Today there is a great company of baptized believers there. Forty years ago we sent our first workers to China. Here too the preaching of the gospel has born fruit. The redeeming grace of the Lord Jesus Christ has been abundantly manifested through the labors of our mis-

sionaries. The next field into which we entered was the Belgian Congo. Here we affiliated with a sister Mennonite mission working in cooperation with another Mennonite Conference in the evangelization of the Congo. The response to the gospel of Jesus Christ has been most heartening. More recently the Lord opened the door in Latin America. Five years ago we sent our first missionaries to Colombia, South America. Here too the Lord has used the labors of servants in the winning of souls. Now again the Lord is opening another door. This time the Lord is bidding us to enter Japan, a land of great need. Before the end of the year we hope to have six missionaries in this new field. This is indeed the time to make Christ known throughout the length and breadth of Japan. The field is the world. From our churches many young men and women have gone forth. In every land the Lord is blessing the preaching of the Word.

The work carried on under the home section of the Board of Missions is equally as important. There are ten city mission churches in the United States and Canada. Three mission stations under the Board work among mountaineer people in three southern states. Eighteen rural churches in Canada and four in the United States receive assistance. The Board has placed a minister in one church in Mexico. One worker is in the East Harlem parish, working among the people of this congested area of New York City. Support and counsel is being given to a number of pastors among our brethren in Paraguay, Uruguay, Brazil and Argentina. Assistance is being given to the Mennonite Church in Berlin, Germany, in its spiritual ministry among our refugee brethren in the city and in the eastern zone. Four homes are maintained in Canada for Mennonite girls who have gone into the cities to find employment. This is suggestive of the scope of the work for which your Board of Missions is responsible. This is truly a great work. The purpose in every endeavor is the salvation of souls and the upbuilding of the Church. More than one hundred fifty missionary workers are on these several fields. Pray for them and for the Board that the Lord's work may go forward.

OUR HOME MISSION WORK

Scope and plan for the year 1951

Home Mission Section

The adoption of the new constitution has broadened the sphere of both the Home and Foreign Sections of the Board of Missions. The new committees are: Church Unity, Evangelism, Mission Personnel, and Ministry. As we think, pray and work ourselves into these correlated areas, we already envisage great possibilities for spiritual growth and development in our General Conference.

The whole Conference is to be affected by the workings of these committees. Evangelism is to touch every congregation whether large or small. The Ministers Committee which arranges for the Annual Retreats, seeks to bring all workers into a solid harmonious spiritual unit. The Mission Personnel committee will seek and enlist candidates for both Sections of the Board. The Church Unity committee endeavors constantly to keep harmony in and among the churches and seeks to gather such congregations into our fellowship that are in sympathy with our General Conference tenets.

The mission extension work in the United States and Canada is carried on with the same zeal and devotion as in the past. In Canada some adjustment must be made to care for and enlist the large number of immigrants of the last three years.

The southern mountain work is being strengthened and enlarged. We have a responsibility to bring the Gospel to these erstwhile neglected people. Gospel memory and camp work is carried on with children and much work is done with adults.

Our field in South America in the various Colonies in Brazil, Uruguay, Argentina and Paraguay, is challenging and encouraging. The dire need of these immigrants that

came completely empty-handed, coupled with their response to the preaching of the Word, constitutes the challenge. The development and progress made in establishing homes, economic and religious life is the encouraging feature. The avenues that still exist of needs and further development, test the faith of the stoutest hearts. Under God progress is being made.

Recently new fields have been entered. If we have a responsibility to present Christ to the Southern mountain people, even so we need to bring the salvation and healing of Christ into the crowded cities as is done in the East Harlem Protestant Parish, in New York and in our Mission centers in Chicago by regular and volunteer workers. A call came from Europe, the cradle of Mennonitism, for help. Aid was given to a struggling Congregation in Berlin, so that a church visitor can call on the sick and dismayed and extend them a helping hand "In the Name of Christ".

THE BOARD OF CHRISTIAN SERVICE

The Board of Christian Service came into
 being through the re-organization plan of
 the new constitution of our General Con-
 ference. Under the broad supervision of
 this Board is now combined the work of
 the former Peace Committee, the Emer-
 gency Relief Board, and the Board of
 Mutual Aid. These three groups, whose

separate responsibilities under the old constitution had touched at many points, are now linked together in such a manner that easy clearance of problems, co-ordination of responsibility, and cooperation in work is readily possible. Through this Board, also, General Conference cooperation in the total Mennonite Central Committee program is carried on.

In order to perform its work efficiently the board has divided its duties among three committees: the committee on Hospitals and Relief, on Mutual Aid, and on Peace and Voluntary Service. Financial contributions may be sent to the Conference headquarters preferably designated for the Board of Christian Service with the understanding that they will be properly budgeted. They may, however, be designated specifically for the Committee on Hospitals and Relief, for Mutual Aid, or for Peace and Voluntary Service.

Committee on Hospitals and Relief

Many Mennonite communities have relief committees functioning in their church programs. The committee on Hospitals and Relief is charged with the responsibility of administering your Conference interests (1) in the broad field of relief (2) in the work of hospitals. In the performance of this service it cooperates wherever possible with other Mennonite groups through the work of our Mennonite Central Committee. However, there are services which it renders specifically to persons and churches within our own Conference.

In the field of relief it tries to solicit funds and make them available for the relief of material and spiritual need. This includes feeding and clothing the hungry as well as helping refugees get re-established in new homes. But it also includes a spiritual ministry because a service of relief rendered "in the name of Christ" cannot be indifferent to hunger for the Bread of Life. The committee likewise helps in soliciting gifts-in-kind, like clothing, canned goods, and flour for distribution through MCC channels. It also tries to find qualified personnel for the relief pro-

gram and counsels those who are seeking to serve.

The Conference has taken an active interest in the establishment of hospitals for the mentally ill. This committee is actively supporting the work with contributions, by a program of information and publicity, and by helping to supply needed personnel. Here it also works with other Mennonite groups through the total MCC program. Plans are under way to discover ways of giving active assistance to our homes for the aged and our general hospitals.

Committee on Peace and Voluntary Service

An important index of our Mennonite life is found in our attitude towards the principle of love and non-resistance. This basic Biblical belief grows out of the total Christian faith and life, and is a necessary part of it. A position of Christian pacifism is not maintained without effort and expression. Together with the home churches, the committee on Peace and Voluntary Service attempts to provide a continuing program of peace education and a positive expression of Voluntary Service. During times of conflict and war it seeks to find suitable alternatives to military service.

The committee assists our churches in Peace and Service through the following channels:

Maintains contacts at Washington, D. C. through MCC. Works in close cooperation with the MCC Peace Section so that our ministers and churches may be informed on significant developments in the area of national thought and action regarding our peace position.

Publishes literature to keep the challenge and latest information before the eyes of our people.

Promotes institutes in which current, significant problems for our times and for the Christian witness can be discussed and clarified.

Sponsors Voluntary Service which offers a positive and practical outreach of the principle of Christian love.

Long Term.

Works with the MCC in directing and financing the program and in encouraging volunteers.

Short Term:

Also works with the MCC.

Sponsors projects of its own through the General Conference Voluntary Service Committee. Projects are chosen to give assistance in areas of our Conference activities. The Young People's Union is co-sponsor of this program.

In these days of many bewildering pressures, the Committee on Peace and Voluntary Service attempts to serve as one of your instruments in meeting the many perplexing problems that face consecrated Christians in a warring world.

Committee on Mutual Aid

In our local communities and in our wider brotherhood we need to assist one another in a special way in meeting some of the common problems of life. This is the Scriptural method by which Christians manifest their stewardship over their time and material possessions.

The Committee receives funds as investments or gifts and in turn makes loans to young people who need help in such matters as starting to farm, establishing a modest business of their own, completing an education, or setting up housekeeping. The committee further seeks to serve as a clearing house for church members throughout the conference on matters of job openings, business opportunities, information about resettlement and colonization possibilities and a minimum vocational counseling service.

A church with a vision and a spiritual vitality has a right to expect consecrated loyalty of its members and a dedicated use of their wealth. They, in turn may expect the church to be concerned with their material, as well as their spiritual welfare.

The Mutual Aid Committee seeks directly to aid the mission cause by assisting families to locate jobs and farms in areas where small Mennonite churches are established.

Voluntary Service in Peace and War

Voluntary Service is for times of peace and certainly also for times of war when conscientious objectors are deferred. Our churches now recognize that young people and older people's short and longer terms of service can be used to a real advantage in spreading the work of the Kingdom. The General Conference and Mennonite Central Committee programs support and undergird the various phases of our total endeavor—missions, relief, peace, and education.

During the past year more than one hundred-sixty General Conference young people gave a month to a year of service. These young people are helping to make our congregations more of a lay-witnessing and serving church. Through V. S. our people are finding a new way to relate themselves to the problems of society in our day. No longer do we wish to be like ostriches sticking our heads into the sands of our comfortable communities. Rather we want to use our brotherhood communities as a spring board to share the gospel by planting small groups of young people in various areas of need. Not only is this a service, it is also a means of training young people for lives of greater usefulness as Christians. It is the practical way to become realistic missionaries abroad and lay witnesses here at home.

The beginning of 1951 finds Mennonite V. S. with a unique opportunity that is in danger of being lost. Millions are being drafted for military service but C.O.'s are left to guide their own life. When others are being drafted C.O.'s may volunteer, may locate their own project and serve according to need and testimony potential. We are in danger of losing this opportunity from two angles. We are not using it and the government may decide to draft C.O.'s. We have to report at the beginning of 1951 that the G.C. had only six draft-age men from the U.S. in one-year Voluntary Service. We confess that thus far we are making a weak witness as deferred C.O.'s.

Our General Conference interest in V. S. is directed into two channels, the M.C.C.

and the G.C. The latter consisted of Summer Service in which thirty-one served in 1951. The General Conference had one hundred-thirty-three individuals in the M.O. C. program of whom forty-six were in the one-year program, twenty-four in the winter service, fifty in summer service of

North America, and thirteen in summer service of Europe. Below are listed those who served in the one-year or longer-term program sometime during 1950. Those marked with an asterisk were still serving as of December 1, 1950.

BOARD OF EDUCATION AND PUBLICATION

The General Conference sessions at Free-man brought about the merger of the Board of Education and the Board of Publication. Prior to the adoption of the new constitution these two boards had, at several occasions, considered the possibility of merging their two interests. There was considerable feeling that the various activities of these two boards overlapped, and as a result the merger brought about many practical advantages, as well as new activities and responsibilities.

Since the new organization, the work of the Board of Education and Publication has been divided into five divisions consisting of the following committees: (1) editorial, (2) educational institutions, (3) historical, (4) publishing, (5) promotional.

The Editorial Committee is responsible for all General Conference publications including our weeklies, periodicals, quarterlies, and all other special publications. This committee has also been responsible in presenting to the Conference the new Uniform Sunday School Lesson Series, as well as the special edition of the Herald Press Summer Bible School Material, which came out in the spring of 1949.

The Committee on Educational Institutions is to assist in establishing uniform policies on educational practices among our Conference schools. It promotes the annual Christian Educational Emphasis Period and sponsors the Foreign Student Program, as well as the C.P.S. Educational Rehabilitation Program.

The Historical Committee is interested in preserving and publishing materials of historical interest to the Mennonite Church. It maintains three historical libraries at Bluffton College, Bethel College, and Mennonite Biblical Seminary where valuable materials are stored, as well as providing new materials from time to time. This committee is also responsible for presenting materials for publication in the historical field.

The Publishing Committee is responsible for the operation of the Mennonite Publication Office, as well as the three Confer-

ence book stores at Newton, Kansas; Berne, Indiana; and Rosthern, Saskatchewan, Canada. This committee represents the interests of the Board of Education and Publication in the Mennonite Press.

The Promotional work of this board is done largely through editors of the various publications, as well as the executive secretary of the board.

The budget of the Board of Education and Publication for the year 1951 amounts to \$110,000. Of this amount it is hoped that a total of \$33,000 will come in the nature of contributions from churches and interested individuals.

It is our prayer that the work of this board will increasingly be of assistance to the churches in carrying out a strong educational program. We covet the interest and prayers of all the churches of the General Conference for this work.

THE NEED FOR REVISION

We are living in a time of rapid changes and transitions. Change has been the order of the day ever since the world began. Our age is different from all preceding ages in that the process of change has been greatly speeded up. Change brings about new conditions and new conditions bring new demands and requirements.

Some ninety years ago the General Conference came into existence. Our forefathers planned wisely and set up an organization which has served the Conference well for many years. But the Mennonite Church, too, did not stand still. It grew in numbers, and new areas of service were new adjustments were necessary, both in developed. With this far-flung expansion the constitution and in the Boards and committees who were promoting and directing the ever-growing fields of activity and service.

A decade or more ago we became conscious of the fact that our Conference organization did no longer function as effectively as it might. A careful study was initiated which revealed the fact that there was duplication and overlapping of the duties of the various Boards and Committees, showing certain weaknesses in the total Conference program due in part to looseness of organization and lack of close cooperation.

A Coordinating Committee was created to whom the responsibility was assigned to make further study and find possible remedies. More and more it became evident that a thorough revision of the Constitution would be necessary. After several years of study the Conference authorized this Committee to revise the Constitution and present it to the next session of Conference. At the 1950 session of the General Conference at Freeman, South Dakota, the proposed revision of the Constitution was submitted by the Committee and adopted by the Conference.

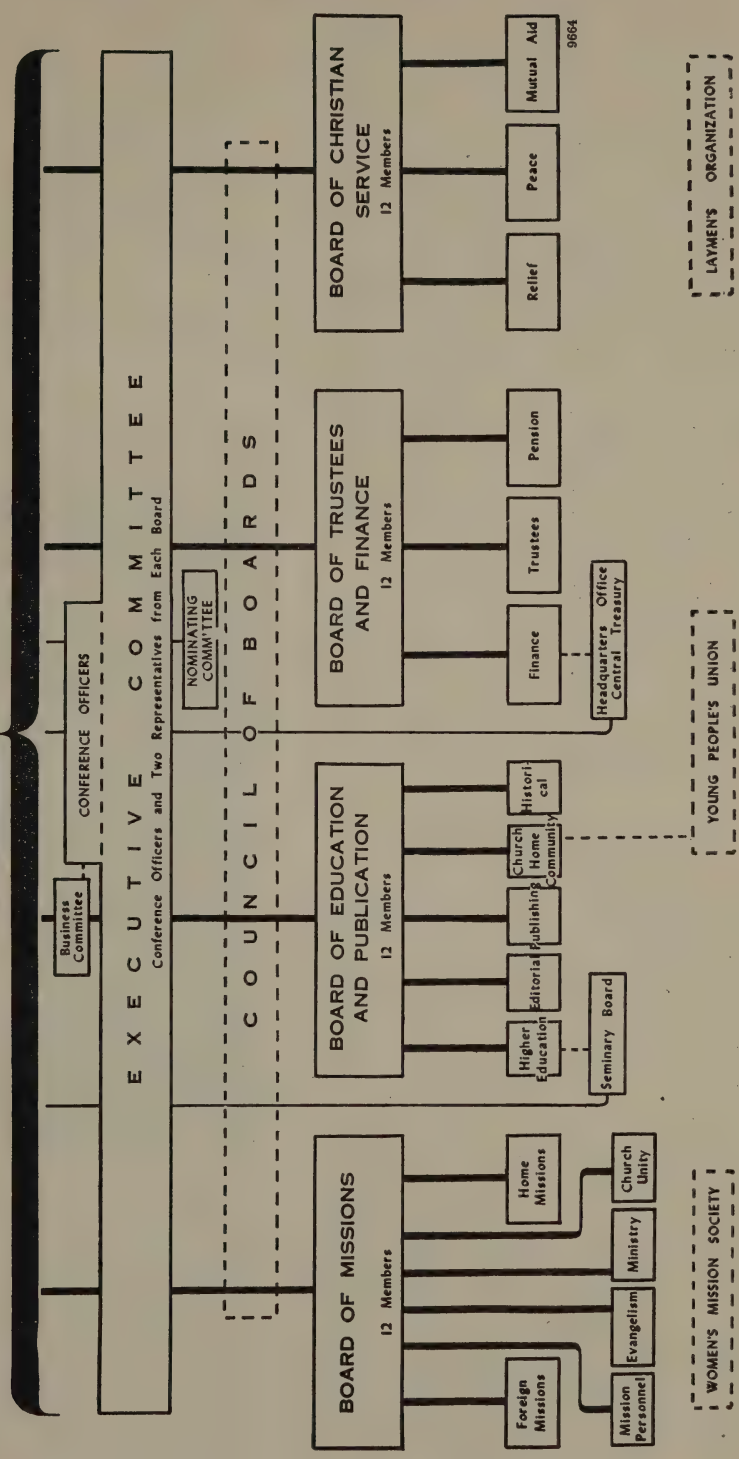

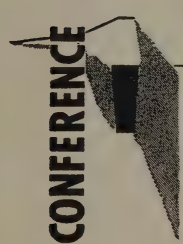

The Conference has now operated under this new Constitution for nearly a year.

Many adjustments were necessary and a rather complete reorganization of the Boards and Committees. The total work of the Conference is now directed by four large Boards, as is indicated in the accompanying chart. These are the Board of Missions, the Board of Education and Publication, the Board of Trustees and Finance, and the Board of Christian Service. Under each Board there are a number of appointed Committees who are responsible to the respective Boards under which they are created.

The Board of Missions, for example, is now responsible for all mission work, both home and foreign. There is no longer a Foreign Mission Board and a Home Mission Board, but rather a Foreign Section of the Board and a Home Section. Since all Mission work is closely related, the whole Board meets jointly to consider problems common to both sections. Then it also meets in sections to promote its own areas of service. This makes for closer coordination and efficiency. The same can be said for the Board of Education and Publication, which under the old Constitution consisted of two Boards. These are two areas of work, and yet so closely related that they can better be regulated and promoted by one over-all Board.

A few moments of thoughtful study of the Conference chart will give the average layman a better understanding of the working of our Mennonite Church. If we want to be intelligent co-workers with God in the great work which He has entrusted to us as His people, we will do what we can to acquaint ourselves with the opportunities and possibilities that are open to us in rendering valuable service in the Vineyard of the Lord. Let us watch and pray, labor and give, so that the causes of the Kingdom of God here on earth need not suffer, but go forward in strength and power. "Behold, I have set before you an open door!" Let us use these open doors while it is still day, for the night cometh when no man can work.

THE GENERAL CONFERENCE MENNONITE CHURCH

THE GENERAL CONFERENCE BUDGET

The Conference budget is a challenge in itself to every last member of the Mennonite Church. It represents our commitments, and the manner in which these commitments can be carried out depends in a very material way on how each one of us meets his or her share of the total program. We give herewith an analysis of the whole budget reduced down to the share per member of the whole General Conference. In considering our particular share in the giving for the needs of Kingdom service, we need ever to remember that there are many who cannot come up to the proportionate share. That means that those who can, will perhaps want to give many times the average requirement. Still this analysis can be useful in helping individual congregations to see whether or not they are doing their part by multiplying one member's share by the total membership of the congregation. Let us cheerfully follow the injunction of the Apostle writing to the Corinthians: "Upon the first day of the week let every one of you lay by him in store, as God hath prospered him". Doing this, the Lord Himself will not fail to bless the labor of our hands.

MENNONITE BIBLICAL SEMINARY

Mennonite Biblical Seminary is now in its sixth year of operation in Chicago. The attendance in 1950-51 has been the largest of any year and probably is the largest gathering of Mennonite students anywhere who are preparing for church service on a graduate basis. Thirty-seven students have taken full-time, graduate seminary work and seven more have taken part time work

in the seminary or Bible school. More important than numbers is the evidence of devotion to Christ, sincerity of purpose, and zeal in work. Students have come from wide sections of the United States and Canada with representatives from South America, Germany, Italy and China. The teaching staff continues as last year with Rev. Andrew Shelly changing from part-time to full-time Field Secretary in January, 1951.

The Seminary exists primarily for the General Conference Mennonite Church and takes its stand on Mennonite fundamentals of the faith. It is concerned also with other Christian movements and attempts to understand them. The city of Chicago provides many opportunities for wide contacts. It also provides opportunities for other services for the Mennonite Church so that the Seminary has become a Mennonite community with many related interests. Some of these are described in a recent mimeographed pamphlet put out by the Seminary. They include guest rooms for transient visitors in the city, a place of rest for missionaries, a place of fellowship for Mennonite students in other schools and for workers in the city, and finally the Woodlawn Mennonite Church which is based on the Seminary. The organization of the church was effected in January, 1951, and numbers sixteen regular members and forty-two associate members. Various projects of witness to the community have been undertaken with the emphasis on children's work.

The financial support for 1950 well covered the operating expenses but failed to provide as much as needed for payments of building loans. Some progress was made however and special effort will be necessary in 1951 to meet these needs. The estimate of funds needed from the church toward operating expenses is about \$36,000. This we hope can be met by contributions from the churches, solicitation being necessary only for capital expenditures. The field secretary could then devote more time to calls for special services and to the interpretation of the work of the Seminary apart from raising funds.

To those of us who have been here for several years it has been a great encour-

agement to see how this work has grown from a few students and no property to the present proportions. Not everything has been perfect but we believe we have seen God's hand and that there is much more yet to be realized. The staff and students have had most congenial relations and we are united in seeking to know His will and to follow it. Twenty-two students have now graduated from the ministerial or the religious education course of this institution with thirteen actually in the ministry or on the mission field and seven more in other forms of church work.

BETHEL COLLEGE

Bethel College opened its doors to students September 1893. For a time, academy and Bible courses were offered. The first A.B. degrees were granted in 1912. It was accredited by the North Central Association in 1938. The control of the school is vested in the Bethel College Corporation and the General Conference Mennonite Church.

Bethel College was established primarily to serve the Mennonite church by providing the facilities for a thorough Christian education for its young people. Thus it aims to provide a center for the conservation of the best elements of historic Mennonitism. Emphasis is placed on industry, integrity of character, sacredness of the home, respect for personality, the authority of the Scriptures, and freedom of conscience. In rendering this service to its constituency, Bethel College aims better to enable Mennonites to make their contribution to the present and future generations.

Since the aims of Bethel College are cultural rather than professional only ordinary pre-law, pre-engineering, pre-medical, and pre-theological courses are offered. To meet cultural and vocational needs, courses are offered in music, art, home economics, industrial arts, business administration and teacher education. With the facilities of the Franz Farm Shop Bethel offers a wide range of courses of interest to farm youth.

The following degrees may be earned: Bachelor of Arts, Bachelor of Theology, Bachelor of Music Education, and Bachelor of Science. The kind of degree conferred by Bethel College is determined by the candidate's field of concentration and his subject of major interest. All four-year degrees require a total of 186 quarter hours, inclusive of 6 quarter hours of physical training. The degree candidate must meet certain "core" requirements to insure that his preparation shall be both comprehensive and integrated. An affiliate relationship between Bethel College and the Bethel Deaconess Hospital School of Nursing, Newton, Kansas, makes it possible for student nurses to come to Bethel for their classroom work in theory. Student nurses may pursue either a five-year course leading to the degree of Bachelor of Science in Nursing or a three-year course leading to the Registered Nurse degree.

In the teaching field courses are offered to meet the requirements for the state two-year Elementary Certificate as well as for the two degree certificates: high school and elementary school. Students preparing to teach may take courses qualifying them for the Bachelor of Science degree in Elementary Education.

Complete personnel services are available to each student designed to help him with the various problems incidental to college life. Participating in this counseling program are the Director of Testing and Counseling, the Advisor to Men, the Advisor to Women, the Dean of the college, the Health Officer, the Placement Officer, the Director of Religious Life, the student's Faculty Advisor and student counselors.

Tuition rates for a normal student load of 12-17 credit hours per quarter are \$98 for each quarter term. This includes incidental fees and student activities. The cost of board in the college dining hall is \$83 per quarter and room rent amounts to \$25 per quarter. Some courses require laboratory fees.

Bethel College makes it a definite policy to aid worthy students who find it difficult to meet the entire expense of a college education without obtaining work or receiving financial assistance. Honor scholarships are granted to graduates of high schools and

junior colleges. Music scholarships are also granted in voice and in each instrument. Some loan funds are available to students to earn part of their expenses. Application blanks for admission, for scholarships, or for student employment are available upon request, from the Director of Admissions.

Two five-week summer school terms will be conducted in 1951, beginning May 31, and July 2, respectively. The fall term of the regular school year will begin September 4, the winter quarter November 26, and the spring quarter will begin March 3, 1952.

BLUFFTON COLLEGE

Bluffton College opened in 1900 as a school sponsored and supported by the Middle District Conference. In 1914, its scope was enlarged and other Mennonite bodies

were represented in its support. Three district conferences now elect representatives to its Board of Trustees, the Eastern, Middle, and Central. Other Mennonite groups are represented by members appointed by the Board itself. A majority of the members of the governing Board are elected by the District Conferences directly.

It is the purpose of Bluffton College to teach youth Christian faith and practice as understood by the sponsoring church group. Young people are prepared for service in both the strictly church vocations and so-called secular callings, with stress on the belief that the Christian is always a servant of God no matter what his vocational choice. Its unique objectives are stated as the desire to develop in its students convictions of a personal relationship with God through Jesus Christ and the development of well-rounded, Christ-like personalities.

Four years of college work are offered, with graduation from a senior high school or its equivalent required for entrance. Bachelor of Arts, Bachelor of Science, and Bachelor of School Music degrees are offered. Majors may be secured in Bible, Christian Education, Psychology, English, Music, Art, Chemistry, Bible, Mathematics, History, Sociology, Social Service, Economics and Business, and Home Economics. In addition minors are offered in French, Physical Education, Philosophy, Physics, and Speech.

Bluffton is recognized for the preparation of teachers for both elementary and secondary school teaching. Graduates in the pre-medical course enter some of our best medical schools. There are cooperative arrangements with hospitals for nursing education. Many graduates go on into seminary work to prepare for full time church service in the ministry or the mission field. There is an increasing interest in preparation for social service, either under church auspices or under other agencies. Those going into business or agriculture are taught principles of business interpreted in the light of Christian standards.

Students are prepared to assume leadership in their home churches through instruction in Bible, music, Christian education, and courses related to wholesome family and community life.

The 1951-52 school year opens in early September. Freshmen report for orientation on September 7. Registration days are September 11, 12 with classes beginning on the 13th.

Due to rising costs changes in fees may be made necessary and the college should be contacted directly for an exact statement of costs. Tuition at present is \$260 per academic year, board \$280, and room rent \$84. The total estimated cost for a student for a year, without scholarship or work aid, is approximately \$675, not including clothing, spending money, or transportation to and from home.

Scholarship aid is available to students who have made excellent records in their high school work, to children of ministers and missionaries, and to those preparing for the ministry. Opportunities are also available for serious students to work to earn a part of their college expenses.

Those interested are invited to write the college for more specific information on any of the points touched upon above, for the answer to any specific questions concerning the activities of the college, or for catalogs or other literature.

Bluffton College is dedicated to the service of God in its ministry to youth. It is an arm of the church dedicated to the specific task of Christian higher education. Your prayers are solicited that it might carry on this important task to the glory of God and the service of His church.

FREEMAN JUNIOR COLLEGE

Purpose

The primary aim of Freeman Junior College is to serve its constituency. While it desires to preserve for the future the splendid ideals of a people, it by no means adheres to a narrow sectarianism. It believes that the ideal upon which all education must be based, if it is to be effective, is the ideal of Jesus. It believes that there should at all times be evident a wholesome Christian atmosphere on the campus. The Board of Trustees has adopted the Statement of Doctrine of the General Conference Mennonite Church. In keeping with this Doctrinal Statement, the College maintains that without a new life in Christ the best education is incomplete. The experience of His redemptive work in the soul makes it possible for young men and women to apply His ethics to daily life. Transcending all other purposes, therefore, is that of leading students to a new and more abundant life in Christ.

To this end the College promotes Bible study, prayer groups and meetings, daily devotional chapel exercises, personal counseling, the application of Christian principles to all materials considered in the classroom, an intimate fellowship with the churches in the surrounding area, and, above all, a deep concern for the personal spiritual welfare of each student.

Educational Opportunities

Freeman Academy offers the regular high school courses requiring sixteen units of work for graduation. With an enlarged shop it lays stress on the practical courses with shop courses as Woodworking, Farm Mechanics and Welding optional to those interested. The Home Economics depart-

ment was recently remodeled and is kept up to date with new stoves and refrigerators every year.

In keeping with its Christian emphasis the Bible courses are an integral part of every student's education and are required thru the four academy years as well as both years of college.

Freeman Junior College offers work in three major fields. For students who do not wish to complete the regular four year college course, they may choose the Junior College Course leading to the Associate in Arts degree. Those wishing to continue in higher education may take the above course which gives a basic foundation for work in specialized fields such as Ministerial training, sociology or engineering. A General College Course with fewer specific liberal arts requirements is offered to those who do not care to finish college.

Since many have as their immediate aim a teaching certificate, the school maintains a complete teacher training department. Students may enroll in either the One-Year or the Two-Year course.

In addition to the regular courses of instruction a balanced extra-curricular program is offered to all students. Organizations devoted to their religious training are the College Student Christian Association, the Christian Youth Volunteers and the Academy Y.W.C.A. and Y.M.C.A. Academy and College interscholastic athletic events are regularly scheduled in games of the season. The academy and college choirs are important parts of the community music and every year the College A Cappella choir takes an extended tour. Other activities as dramatics, debate, band and others are open to interested individuals.

Calendar and Cost

The school year opens the first week in September and closes the last Friday in May or the first Friday in June. Quarters

are 12 weeks each. Corn picking and Spring Recesses of one week each are taken in addition to the regular Thanksgiving, Christmas and Easter Recesses.

A year's tuition in the Academy is \$135 and in the College is \$240 subject to addition of laboratory course fees and cost of books. Student activity fee of \$6.00, Mutual Aid of \$3.00 and Health fee of \$1.00 a year are charged of all students.

REPORT ON THE ROSTHERN JUNIOR COLLEGE

Historical: the German-English Academy was founded 1903 by Mennonite immigrants who had come to Saskatchewan from Russia, Germany, Manitoba and the U.S.A. The primary and immediate purpose was the training of teachers for the district schools, who would be capable of teaching in both English and German, and who would also be able to give religious instruction in accordance with established traditions.

The school is not under the direct management of the Mennonite church, but under a corporation consisting of voluntary members of various Mennonite churches.

In 1946 the name of the school was changed to Rosthern Junior College. This change is an expression of an aspiration to include the second year of the Arts and Science course in the Curriculum. This objective was realized in 1948.

The motto of the school is the well known scripture passage: "For other foundation can no man lay than that is laid, which is Jesus Christ." The aim of the institution is to serve its constituency by preserving the best traditions and ideals of the Mennonite people and by providing young people with an opportunity to acquire a well-balanced Christian high school education. To achieve this aim, the prescribed course of the Department of Education has been enriched by the addition of courses in Religion, Church History, Mennonite History, Christian Ethics and Language. Every student is expected to avail himself of these opportunities to the fullest extent.

The aim in the courses of Bible and Christian Education is to acquaint the student

with the Bible as the Word of God, to develop a social conscience and a sense of group responsibility, to foster discipline of conduct, develop moral life, and lead the students into a regenerated religious life and his acceptance of Christ as his Lord, and to prepare him for effective participation in the life of the home, the church and the community at large.

As German is still predominantly used in our church service, every effort is being made to help students to acquire a good working knowledge of German. Besides the prescribed courses of the Department of Education, additional grammar and composition is taught. A survey is made of the easier of the great masterpieces of German literature. Special classes in remedial German have been conducted for those who are weak in the subject.

Great emphasis is placed on music and singing. Every student sings in the large school choir. Then there are male and girls' choirs and a special concert choir. Lessons are offered in voice, violin, and piano. There is also a conductors course for senior students and an appreciation and theory course for all.

The school fees vary with the grades. Tuition for nine months ranges from \$40.00 in Grade IX to \$88.00 in Grade XII. Board and room is \$247.00 for the same period.

SCHOOLS OF NURSING

We have two schools of nursing which are a part of two of our General Conference hospitals. They are:

Bethel Deaconess Hospital School of Nursing, Newton, Kansas.

Mennonite Hospital School of Nursing, Bloomington, Illinois.

These two schools offer the regular three year course in nursing which permits the graduates to become Registered Nurses. They are fully accredited by their respective state and other approval agencies.

It is the purpose of these schools to select Christian young women with an aptitude for nursing and to assist them to develop that aptitude in preparing themselves to give the best in nursing care and to give that care in a spirit of Christian love and devotion. It is the further purpose of these schools to develop these aptitudes in an environment that will develop Christian life and character with special consideration to those who are preparing for some definite field of Christian service.

With the many opportunities open in this area young women are encouraged to give nursing consideration as a possible field of service.

STATEMENT OF FAITH OF THE GENERAL CONFERENCE MENNONITE CHURCH

as adopted at Souderton, Pa., in 1941

Accepting the full Bible and the Apostolic Creed: 1. We believe in one God, eternally existing and manifest as Father, Son, and Holy Spirit. 2. We believe in the Deity of Jesus Christ, "the only begotten of the Father full of grace and truth," born of the Virgin Mary, in His perfect humanity, His atoning death, His bodily resurrection from the dead, and His personal triumphant return. 3. We believe in the immortality of the soul, the resurrection of the dead, and a future state determined by divine judgment. 4. We believe in the divine inspiration and the infallibility of the Bible as the Word of God and the only trustworthy guide of faith and life. 5. We believe a Christian is one saved by grace whose life is transformed into the likeness of Christ by His atoning death and the power of His resurrection. 6. We believe that Christ lived and taught the way of life as recorded in the Scriptures which is God's plan for individuals and the race, and that it becomes disciples of Christ to live in this way, thus manifesting in their personal and social life and relationships the love and holiness of God. And we believe that this way of life also implies non-resistance to evil by carnal means, the fullest exercises of love, and the resolute abandonment of the use of violence, including warfare. We believe further that the Christian life will of necessity express itself in non-conformity to the world in life and conduct. 7. We believe in prayer as fellowship with God, a desire to be in His will, and in its divine power. 8. We believe that the Christian Church consists of believers, who have repented from their sins, have accepted Christ by faith and are born again, and sincerely endeavor by the grace of God to live the Christian life. 9. We believe in the brotherhood of the redeemed under the fatherhood of God in Christ.

ABRIDGED STATEMENT OF OUR POSITION ON PEACE AND WAR

as adopted by the General Conference Mennonite Church, Souderton, Pa., in 1941

1. Our peace principles are rooted in Christ and His Word, and in His strength alone do we hope to live a life of peace and love toward all men.

2. As followers of Christ, the Prince of Peace, we believe His Gospel to be a gospel of peace, requiring us as His disciples to be at peace with all men, to live a life of love and good will, even toward our enemies, and to renounce the use of force and violence in settling our problems as contrary to the spirit of our Saviour and Master. These principles we derive from such Scripture teachings as: "Love your enemies"; "Do good to them that hate you"; "Resist not evil"; "My Kingdom is not of this world: if my kingdom were of this world then would my servants fight"; "Put up thy sword into its place; for all they that take the sword shall perish with the sword"; "Dearly beloved, avenge not yourselves"; "if thine enemy hunger, feed him; if he thirst, give him drink; for in so doing thou shalt heap coals of fire on his head"; "Be not overcome of evil, but overcome evil with good"; "The servant of the Lord must not strive; but be gentle to all men"; "The weapons of our warfare are not carnal"; "Christ also suffered for us, leaving us an example, that ye should follow his steps; who did no sin, neither was guile found in his mouth; who when he was reviled, reviled not again; when he suffered, he threatened not"; "Not rendering evil for evil, or railing for railing; but contrariwise blessing"; "If a man say I love God and hateth his brother, he is a liar... And this commandment have we from him, that he who loveth God love his brother also"; and other similar passages, as well as from the whole tenor of the Gospel.

3. Peace within the heart as well as toward others is a fruit of the Gospel. Therefore, he who professes peace must at all times and in all relations with his fellow men live a life that is in harmony with the Gospel.

4. We believe that war is altogether contrary to the teaching and spirit of Christ

and the Gospel; that therefore war is sin, as is all manner of carnal strife; that it is wrong in spirit and method as well as in purpose, and destructive in its results. Therefore, if we profess the principle of peace and nevertheless engage in warfare and strife, we as Christians become guilty of sin and fall under the condemnation of Christ the righteous judge.

THE COMING WORLD CONFERENCE OF MENNONITES

The 1948 World Conference of Mennonites held at Goshen, Indiana, and North Newton, Kansas, assisted greatly in bringing Mennonites of the world closer to each other. The Brethren J. N. Smucker and H. A. Fast served on a program committee of the above-mentioned conference. The Mennonite Central Committee is at present making plans for sponsoring another world conference of Mennonites to be held in Switzerland in 1952. The MCC is attempting to limit representation to this conference from the United States to a total of 100 persons. Since our General Conference session will not take place until after the 1952 World Conference of Mennonites, we wish to encourage early planning by those interested in representing our General Conference Churches.

THE MENNONITE CENTRAL COMMITTEE — 1950 RELIEF SECTION

At the end of 1950 there were 138 MCC workers active in 17 foreign countries. This is 18 less than one year ago. The needs of man caused by the present conflict are becoming apparent. It continues to be the aim of this organization to meet this need by making available the contributions to the most needy in the far corners of the world regardless of color, creed or race.

Far East—Since the Philippine relief unit closed in November, 1950, there are only five units in the Far East. The community center activities at Osaka, Japan, include Bible lessons for both adults and children, English and sewing classes, handicrafts, work with physically handicapped children, child training, and material aid assistance. In Shanghai the main project is the "Free

Vocational Center" where teen-agers are taught trades as well as a number of other elementary and practical subjects. At Hengyang the orphanage continues under the direction of the three Chinese Mennonites. The MCC Mobile Clinic is serving many needy people among the aboriginal tribes in the interior of Formosa. The latest reports indicate that the proposed project for T.B. contact children began in Hong Kong the middle of December. The MCC witness in Java is being extended as the workers have time and opportunity. The 20-bed hospital at Djoana approved by the executive committee earlier has not been approved by the local government. A medical clinic is open three days each week at Kajuapoe with the number of patients steadily increasing. Medical services are also carried on in other nearby areas.

Middle East—The MCC relief unit in Palestine is now housed in Jericho where there are many needy Arab Palestine refugees. A vocational school opened September 14, 1950. The first subject taught in this school is shoemaking, a skill very much needed among the refugees. Other handicraft subjects will be taught as supplies and workers are available.

Europe—During the past two years in Europe there has been a rapid change from material aid distribution to moral and spiritual rehabilitation. MCC workers have seen the spiritual needs among the people and have adapted the program to meet these needs as much as possible. Considerable assistance has been given to European Menonites in preparing usable Sunday School and summer Bible school literature. We are doing what we can to meet the many requests for Bibles and other religious literature.

Community centers continue at Berlin, Heilbron, and Kaiserslautern, Germany, and Vienna, Austria. The emphasis continues to shift more and more from material assistance and self-help to activities of a religious nature such as Bible study classes and summer Bible schools.

The MCC has had ten years experience working with children in Children's Homes. The Children's Home at Nancy has been

moved to Valdoie near Belfort, France. Since the Weiler home, also in France, is for sale and since the lease expires next summer the executive committee has approved the discontinuance of this project in June. The Children's Home at Bad Duerkheim in Germany is serving many needy children in that area.

A total of slightly more than 211 tons of clothing were contributed during the past fiscal year. This is approximately 16 per cent less than the previous year. The amount of food shipped in the past year is only slightly less than the year before. This is due to the fact that in early 1950 large shipments were made of foods that were carried over from the previous fiscal year. Food donations in which the donors contributed in carload lots and paid transportation to shipside consists of 153 tons of flour and one carload of beans. Approximately two tons of miscellaneous food was received at our Mountville warehouse.

Clothing collection centers at Ephrata, Newton, Reedley, Kitchener and Winnipeg continue as before. Food collection centers were closed during the year, but may be set up again if we are to accept food contributions in line with the requests that come in from the workers on the field.

MENNONITE AID SECTION

Europe—The hub of our European work is at Gronau where the Mennonite refugees are assembled and processed. The primary purpose of Gronau is that of an immigration camp where people are screened by IRO and immigration officials, after which they move in to the ports of embarkation. The government of Western Germany provides the much needed financial assistance at the rate of 3.05 marks per person per day.

It is estimated that there are about 600 Russian and Galician Mennonites, who are still planning to migrate, living outside the Gronau camp. Each of these presents a problem for the staff because intercession to the immigration teams is necessary to clear the applicant. Additional Mennonite refugees are entering Western Germany from the East, and effort is always made to provide for their needs to the limit of our ability.

The Danzig and Prussian Mennonite group has been estimated at various figures, but we believe 6,000 persons would be nearly accurate. 700 of these may go to Uruguay to join relatives who preceded them in 1948. Others will be resettled in Western Germany in housing projects which Brother C. L. Graber is helping to arrange. Our entire European program is under the general direction of Brother C. F. Klassen.

South America—It has been necessary to curtail seriously our aid projects for South America due to financial limitations, but despite this the colonies have been progressing satisfactorily in building their communities and churches. Recent reports from there indicate that the accomplishments of the immigrants have been tremendous. This past year MCC has provided personnel for various services to the colonies in such fields as education, spiritual ministry, agriculture, and general relief.

The Uruguay immigrants are now becoming established on the 3,000 acre tract at El Ombu. The land has been sub-divided and families are now building homes on these sites. Clothing and tools were shipped to Uruguay to assist the settlers in their resettlement.

The MCC program in Brazil centers at Sao Paulo where David and Helen Quapp are in charge of the headquarters home. The Mennonites in the vicinity of Sao Paulo are taking an increased interest in making the home a center of their social and religious life.

The Buenos Aires center which is endeavoring to maintain contact with the scattered Mennonites in that city is now in charge of Martin Duerksen from Fernheim, Paragroup.

Canada and the United States—It is not possible to predict yet how many of our remaining Mennonite refugees in Europe may be able to enter Canada, but the signs are encouraging that the doors may be opening wider. 411 Mennonites from Europe entered Canada in 1950, while in the past four years the total is 5906.

Since we have been able to bring only 55 Mennonites into the United States in the past year, 380 non-Mennonite refugees, largely from the Ukraine, have been placed

with Mennonite sponsors.

Agricultural Trainee Program—Twenty-one Mennonite agricultural trainees are in the United States, placed in Mennonite homes across the country. These young men have entered for one year, and are slated to return to their homes in May, 1951. The program was an outgrowth of the Student Exchange program, and has been so satisfactory to trainees, their sponsors, and MCC that an enlargement to 50 trainees is planned for 1951.

MENTAL HEALTH

Brook Lane Farm—On December 2, 1950, the first MCC mental hospital completed its second year as an institution licensed by the State of Maryland. The average number of patients in the past year was 17. Dr. Helmut Prager continues to serve in the capacity of psychiatrist. An outstanding expansion to hospital services has been the addition of Jacob Goering to the staff as a counseling therapist.

Kings View Homes—at Reedley, California was dedicated on Sunday, February 11, 1951, and will accept patients at that time or very soon thereafter. This is the second MCC hospital for the mentally ill. Art Jost will be the director of the hospital, and Jackson C. Dillon, M.D., will take charge of the psychiatric and medical services.

The Central Area Committee will be encouraged to move in the direction of selecting an administrator and a site for the third hospital as soon as there will be relief from the pressure of raising funds for Kings View Homes.

PEACE SECTION

In this worsening world situation, the Christian witness of the historic peace churches becomes more and more significant, and more and more needed. The Peace Section has been active in promoting this testimony and in efforts to keep the way clear for the free expression of the deep convictions of our people in all these matters of war and peace.

When the draft extension law was passed in July 1950, the number of requests for information and help from O.O. registrants

increased greatly, although there was no change made in the provisions concerning conscientious objectors.

In the original form of the Registration and Induction of Doctors and Dentists Bill it was not clear whether the amendment was so worded that the general provisions for CO's would apply in the case of doctors and dentists required to register under this act. Following testimony given by Dr. H. Clair Amstutz, secretary of the Mennonite Medical Association, and others, the language of the bill was amended to make it clear that the general provision for CO's under the Selective Service Act does apply to doctors and dentists registered under this Act.

NSBRO services to its constituent groups, and to all CO's with draft problems, are continuing as formerly. The office is now located at 1000 Eleventh Street, N.W., Washington, D.C., with A. Stauffer Curry, Executive Secretary.

An historic conference of North American Mennonites was held on November 9-12, 1950, at Winona Lake, Indiana. Eighty-seven representatives met to give intensive study to our non-resistance doctrine, its Biblical and theological basis, and its implications and application in today's world.

A Conference on the Church and War, called by a committee representing the historic peace churches was held at Detroit, Michigan, May 8-11. Of the more than 400 delegates 39 were from the constituent churches of the MCC. Another conference of interest was the one held by the Mennonites, Friends, and Brethren at Winona Lake on March 24-26.

Through the efforts of the Peace Section an amendment was accepted which preserves for bona fide religious objectors to military service in any form the privilege of becoming citizens.

VOLUNTARY SERVICE

1950 was another year of growth and expansion for the Voluntary Service Section in all types of service. During the past year 513 young people participated in the MCC-

VS program. It is now certain that VS has become an accepted part of our church life and program. The concept of VS is accepted by all and is now finding its expression in many ways through constituent group programs and that of the MCO. The detailed discussion of Voluntary Service is on another page.
